SUMMARY

MERN-Stack web developer with a strong foundation in HTML5, CSS, TailwindCSS, Ant Design, JavaScript, React, TypeScript, Node.js, Express.js, and MongoDB. Experienced in building scalable and reusable components for enterprise-level applications, user-friendly web solutions. Passionate about technology and dedicated scalable web solution.

WEB APP DEVELOPMENT LEARNING EXPERIENCE   June 2022 - Present

- Focused on developing full-stack web applications using the MERN stack, with a strong emphasis on creating efficient, high-performance solutions

- Actively building a solid foundation in modern web development technologies, focusing on designing responsive, user-centric web applications using the MERN stack and other innovative tools.

- Building and deploying modern web applications, leveraging technologies like React, Node.js, and MongoDB to deliver robust and seamless user experiences.

PROJECTS

- Built an e-commerce store with React and Tailwind CSS, integrated Redux for add/remove basket functionality, and implemented Firebase Google authentication for secure login.

- Developed an AI chat -Bot Google Gemini clone using React JS , focusing on efficient state management with the `use context ` hook . Integrated conversational AI features for a seamless user experience. Optimized the application's performance for real-time interaction and responsiveness
