# Burhan Chughtai

## Full Stack Developer (ReactJS, NodeJS)

**Phone: +923222051533 |GitHub |LinkedIn |Portfolio**

## SKILLS:

HTML, CSS3 , JavaScript, React JS, ES6, ES7, Bootstrap, Tailwind CSS, Material UI, Firebase, Node JS, Mongo DB

## Web App Development Learning Experience

Duration: More than 2 year

- Gaining hands-on experience in both front-end and back-end development

- Working with technologies such as HTML, CSS, JavaScript, React JS and various back-end frameworks.

- Developing real-world projects to apply and enhance coding skills

## EDUCATION:

- Intermediate in Computer Science [Government Degree Boys College 5-L, New Karachi] Completed: [August, 2024]

- Matriculation in Computer Science Public School and College, Karachi | Completed:[2022]

## PROJECTS

- Developed an AI chat -Bot Google Gemini clone using React JS , focusing on efficient state management with the `use context ` hook . Integrated conversational AI features for a seamless user experience. Optimized the application's performance for real-time interaction and responsiveness

- Developed an e-commerce store using React and Tailwind CSS. Implemented add to-basket and remove-from-basket functionality with Redux for state management.
Integrated Google authentication using Firebase for secure user login

- In the voting app I'm created, the functionality includes user authentication, JWT based session management, admin check, voting system with party display, vote counting, responsive UI with Tailwind CSS, and backend integration.

- Admin-panel project is a React-based admin panel styled with custom CSS, built for handling administrative tasks with features like routing and data visualization through graphs.
